

Brief Biography of Ventana Lakes

Larry Englerth
10514 W Yukon Drive
Peoria, AZ

I grew up in the Dakota's where I was educated and raised my two children. During that time, I had the opportunity to participate in or direct various organizations that provided for the betterment of our local community.

I am a college graduate with a bachelor's degree in education and have over 35 years of experience in business as a mid-level operations manager for a major telecommunications company and a self-employed consultant working for a government agency. This background has provided me the opportunity to enhance my knowledge of business operations with emphasis on management and financial issues which are similar to the issues facing our community. Following retirement, we relocated to this area to enjoy time with our children and grandchildren.

Since moving to Ventana Lakes in 2009, I have been involved in the Finance Committee for calendar years 2010 & 2011 where I have taken an active role in assisting the HOA in monitoring expenses by developing historical spreadsheets that provide a broad basis for tracking spending patterns and targeting areas where cost savings may be available. At the request of this committee, I researched options for updating the cardio equipment in the fitness area and developed bid process that allowed the community to economically replace the cardio equipment over a three year period. Included in this bid was a process to conduct routine maintenance on this equipment which would prevent the quality deterioration of this equipment from reoccurring.

I have also served on the Incentive Pay Committee which is currently active in researching issues and am serving on the Recreation Center renovation committee.
