

## President's Report

July/August 2011

As you look around, the progress being made in renovating the inside and outside of the Yacht Club is obvious. We should ALL express our gratitude to the steering committee which spent countless hours considering, debating, choosing, shopping, examining and planning this huge undertaking, as well as actively overseeing the work in progress. Many of our residents are also involved in the actual physical construction or repair/replacement in an effort to keep costs down. We will all benefit from the upgrading of our facilities in terms of usage and property values thanks to the diligence and determination of these highly involved volunteers.

Apparently orders from the Waste Water plant are frustrating some of our residents again. Please contact Roger Carr at 623-363-1284 IMMEDIATELY when noticing airborne odors you suspect may be coming from the facility.

Thanks to our block Watch volunteers, alert citizens and the initiative and full cooperation from the Peoria Police Department, the break-ins and thefts occurring in an area of our community have ceased after the arrest of a trespasser seen and reported by an alert resident. If you see something that doesn't make sense or look right to you please call the Peoria Police Department. We may all be glad you did!

Only about a third of our residents have signed up in the office to receive email from the Community Manager or Assistant Manager regarding emergency or security issues, news from Peoria police or fire departments, pool closings. Upcoming events, cancelled activities, etc. Please consider giving your email address to the office staff. Your email address will NOT be available to anyone other than the Managers.

To each and every one of our vivacious, versatile volunteers, we offer our appreciation for your efforts to keep Ventana Lakes a pleasant, attractive, active and safe community.

Judy Mabie  
President, Board of Directors
